

Guidelines for air transportation of In&motion mechanical airbag products

This document applies to the following elements:

- The **airbag product**
- Spare **gas cartridges**

Airbag product

Spare gas cartridge

Airbag product

- The airbag product is a single self-inflating personal safety device fitted with 1 gas cartridge securely attached to the airbag system.
- The airbag product is not classified as a dangerous good.
- Up to two (2) airbag products may be transported in the **checked baggage** or as **carry-on luggage**.

Spare gas cartridges

- Spare gas cartridges (containing carbon dioxide) are dangerous products belonging to **Division 2.2** according to the UN Dangerous Goods Classification.
- Up to two (2) spare inflators may be transported in the **checked baggage** or as **carry-on luggage**.
